FLORIDA FFA DISCUSSION MEET

Discussion Meet Topics

1. Increasingly, American agriculture has relied on foreign workers in response to a diminishing domestic workforce. How can Farm Bureau help to ensure a reliable supply of labor for agriculture moving forward?
2. The concern of climate change and its effects on our world has been brought to the forefront of discussions by legislators and agricultural leaders. How can farmers maintain and demonstrate proper management of natural resources to ensure a clean, sustainable environment for the general public and future generations?
3. What impact do local media organizations have on the public's perception of agriculture and how can FFA and Farm Bureau partner to better utilize media outlets as a positive resource?

Final Topic:

4. How can Farm Bureau and FFA work together to bridge the gap between farmers/ranchers and lawmakers in order to influence the changing political environment?
